Enterprise UK National Championship 2019

Mounts Bay SC

Scrutineering Form

In response to feedback from previous championships, this year's Saturday scrutineering will run slightly differently...

During the couple of weeks leading up to the championships, each boat will be allocated into one of the Gold/Silver/Bronze fleets based on their previous experience, and "Buddy Teams" of 3 boats will be allocated, usually with a Gold/Silver/Bronze fleet member in each.

Buddy Teams will be allocated berths together, and will self scrutinise their 3 boats together on Saturday.

In order to minimise the risk of last minute panics, the Championship Committee encourage competitors to self certify as much as possible in advance of arriving at the event.

Please note that the Championship Committee may choose to perform "spot check" scrutineering during the week, and if you fail any of the checks at this point, you'll score a DSQ for all races up to the point you rectify the situation.

Please fill in this form and return it to complete your registration.

If you'd like help with any of the scrutineering points, or an official scrutineer to help scrutinise one of your team's boats on Saturday, please contact one of the registration team.

| Check | Item | Rule | Criteria/Check | Self Check Result | Scrutineer Result | Pass / Fail |
|-------|-------------------------------|--------------|--|-------------------|-------------------|-------------|
| 1 | Measurement Certificate | 5 | Visual check that the number of correctors in the boat is as recorded. | | | |
| 2 | Measurement Certificate | 5 | Sails to be used in this event have been measured and are recorded on the certificate. | | | |
| 3 | Jib Fairleads | 18 B 10 b | > 1200mm over fairlead bearing surface. | | | |
| 4 | Centreboard | 11A | Depth of centerboard below keel: 826mm max (excluding keel band). | | | |
| 5 | Centreboard | Plan sheet 7 | Centreboard handle length: 120mm min, 160mm max. | | | |
| 6 | Mast Position | 14 A 1 | Distance from transom to aft side of mast at deck level: 2689mm max, 2677mm min. | | | |
| 7 | Current Class Transom Sticker | 20 | Affixed to aft of transom. | | | |
| 8 | Bow number on trolley | - | Affixed to front of trolley. | | | |
| 9 | Bow number stickers x 2 | - | Affixed to port and starboard as high as possible on each side of the boat as close to the bow as possible | | | |
| 10 | Allen sponsor stickers x 2 | - | Affixed to port and starboard within 200mm of bow number stickers. | | | |
